

AMENDMENT TO THE SPECIFICATION

Page 7, please amend the last paragraph as follows:

Although the present invention has been described in considerable detail with reference to certain preferred embodiments thereof, those skilled in the art can easily understand that all kinds of alterations and changes can be made within the spirit and scope of the appended claims. For example, the quantities of each member are of reference only without being limited thereto. Spouts 57 can be disposed at the jointing portion between the upper shaft portion and the lower shaft portion, as shown in Fig. 2, and more than one spout can be disposed thereon. Since such spouts are of conventional art, there is no limitation on the actual structure thereof. The angle adjustment of spouts can be achieved by various means. The structure of the shaft portion capable of being divided or bent can also be achieved by various means. Therefore, the spirit and scope of the appended claims should not be limited to the description of the preferred embodiments contained herein.
